Note: BLS revised its estimates for the number of jobs and seasonal adjustment method at the beginning of 2010.

For March Illinois Job Index, Illinois, RMW and the nation have little changes for the payroll employment.

The monthly Illinois Job Index and MSA Report are issued monthly as tools for elected officials, policy leaders and the public. The objective is to enhance the understanding of the Illinois economy and business climate by comparing and measuring Illinois employment growth rates against those of the Rest of the Midwest (RMW: Indiana, Iowa, Michigan, Missouri, Ohio and Wisconsin) and the Nation. Data and analysis is provided by the Illinois Economic Observatory / Regional Economics Applications Laboratory, University of Illinois.
